How to Use This Book

1 Pick a picture you like.

Every page shows a picture in 4 or 5 small steps, and the "Done!" box shows the finished drawing.

2 Look for the black lines.

In each step, the black lines are the new ones to draw. Gray lines are the ones you drew before.

3 Draw in the "Your turn!" box.

Copy one step at a time. Use a pencil and draw lightly.

4 Finish it your way.

Go over your final lines with a dark pencil or crayon. Erase the extra pencil marks, then color your picture.

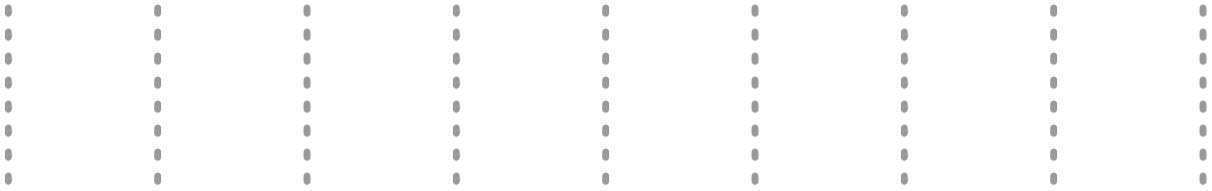

For grown-ups

Sit with your child for the first few pictures and praise effort, not perfection. Every drawing looks a little different!

Warm Up!

Trace the dotted lines with your pencil.

Straight lines

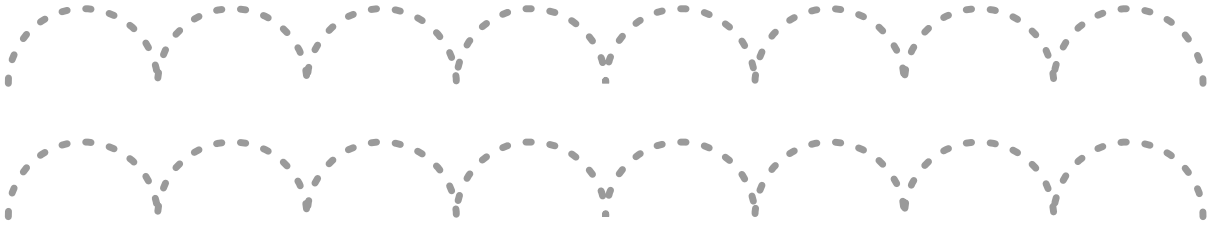

Waves

Zigzags

Bumps

Great job! Now you are ready to draw.

Warm Up Some More!

Trace the dotted lines with your pencil.

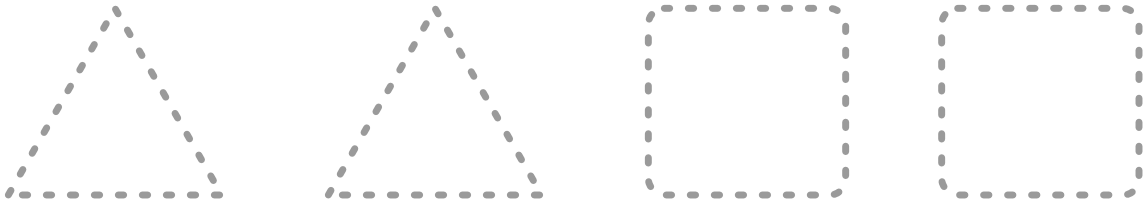

Circles

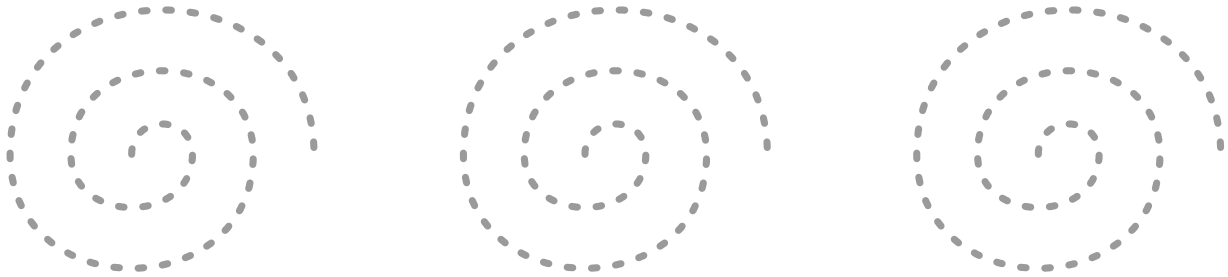

Ovals

Triangles and squares

Spirals

Great job! Now you are ready to draw.
